# Adarsh Priyadarshi

## Full Stack Web Developer

## Professional Summary

Dynamic full stack web developer with expertise in the MERN stack, adept at crafting scalable web applications. Proficient in designing APIs with Node.js and Express.js, integrating frontends using React.js. Strong skills in using Generative AI, learning new technologies rapidly, and enhancing workflows effectively.

## Experience

### Quickinsure Pvt Ltd | Technical support June 2023-present

- Collaborated actively with internal teams and external partners to provide technical support for insurance products, applications, and platforms, driving seamless operations.
- Assisted in configuring, testing, and maintaining IT systems and tools involving policy issuance and premium calculations, ensuring operational excellence.

## Projects

### KFC Clone [Live Demo Link](#) [Github Repo Link](#)

JavaScript

React

Git

HTML5

CSS3

Responsive Web Design

Redux

RESTful APIs

- Built a food delivery app using React and Bootstrap.
- Implemented CRUD operations for Food Cart and orders, also handling item, category, and bill management.
- Developed a responsive and dynamic UI with error handling and validations.
- Utilized Redux for state management and integrated RESTful APIs for server communication.
- Maintained version control using Git.

### TO DO APP [Live Demo Link](#) [Github Repo Link](#)

JavaScript

Git

HTML5

CSS3

Responsive Web Design

- Developed a TO DO APP with CRUD operations for task management.
- Designed an intuitive user interface with dynamic updates using HTML, CSS, and JavaScript.
- Integrated APIs to enhance functionality and managed the project using GitHub for version control.
- Implemented responsive web design principles to ensure cross-device compatibility.
